TURBOCHARGERS REPAIR CENTER - SPARE PARTS

# TURBOMARE

Για περισσότερα από δέκα χρόνια, το όνομα αυτό έχει συνδεθεί με υπηρεσίες επισκευής και συντήρησης Υπερηλκρωτών Μ.Ε.Κ. υψηλών προδιαγραφών. Ο ιδρυτής και Διευθυντής της εταιρείας, Κώστας Παρασκευόπουλος, μέσα από την 30χρονη παρουσία του, έχει καταξιωθεί στο χώρο της ναυτιλίας. Το όνομά του αποτελεί εγγύηση για την άμεση και τεχνικά άρτια παροχή υπηρεσιών και ανταλλακτικών στον τομέα των υπερηλκρωτών.

Η TURBOMARE προσφέρει στους πελάτες της μια ευρεία, αλλά και εξειδικευμένη γκάμα υπηρεσιών:

- Πλήρες stock ολόκληρων μονάδων και ανταλλακτικών των μεγαλύτερων κατασκευαστών στις εγκαταστάσεις μας στην έδρα της εταιρείας στην Δραπετσώνα, όπως και στην αποθήκη μας στην Μαγούλα Αττικής.
- Ασυναγώνιστους χρόνους συντηρήσεων και επισκευών από έμπειρα και εξειδικευμένα συνεργεία τεχνικών.
- Ανταγωνιστικές τιμές.
- Άμεσες λύσεις σε τεχνικά προβλήματα στη λειτουργία των Υπερηλκρωτών.
- Ποιότητα υπηρεσιών πιστοποιημένη από τους Νογνώμονες Lloyd's Register και Bureau Veritas.

Κατά τη μακρόχρονη παρουσία μας στο χώρο, η συνέπεια, η ποιότητα και η τεχνική κατάρτιση που διακρίνει το ανθρωπινό δυναμικό της TURBOMARE έχουν κερδίσει την εμπιστοσύνη των σημαντικότερων εκπροσώπων της εμπορικής μας ναυτιλίας. Είμαστε βέβαιοι ότι, για τους ίδιους λόγους, θα καταφέρουμε να κερδίσουμε και τη δική σας αναγνώριση.

For more than a decade, this name has been related to high quality repair and maintenance services for IC Engine Turbochargers. For over 30 years, Kostas Paraskevopoulos, the founder and Director of the company has excelled in the Maritime industry and has been successful in making his name a synonym with supplying technically prompt and perfect services and spare parts in the field of turbochargers.

TURBOMARE provides a wide yet specialized range of services to customers:

- Full stock of whole units and spare parts from the world's largest manufacturers at our facilities at the company's registered seat in Drapetsona, as well as at our warehouse in Magoula Attica;
- unrivalled repair and maintenance times by experienced and specialized technical teams;
- uncompetitive prices;
- immediate solutions to technical problems in turbochargers' operation;
- high quality services certified by Lloyd's Register and Bureau Veritas Ship Registers.

Our lengthy presence in the field in conjunction to our highly qualified and technically trained staff has led TURBOMARE to gain trust from the world's most recognized merchant shipping representatives; as such, we have utmost confidence that we shall meet your expectations as well.

## TURBOMARE WORKSHOP

Based in a fully equipped repair plant close to the port of Piraeus and all the major shipyards and terminals nearby, our workshop is adequately equipped with the essential machinery to inspect and repair any turbocharger part. TURBOMARE's in-house services include a wide range of activities such as turbocharger overhauling and inspection, re-blading of rotors, dynamic balancing, retro-fit and ultrasonic inspection. In addition, an impressive stock of spare parts of various types of turbochargers is safely stored and preserved in our workshop in order to meet the routine or urgent demands of our clients, providing ex-stock delivery terms. The management of the spare parts and repairs follows the strict standards of Lloyd's Register Quality Assurance and the Bureau Veritas Certification.

## TURBOMARE WAREHOUSE

Part of TURBOMARE's selling strategy is keeping a large inventory of turbocharger spare parts of all types (ABB, MAN, MITSUBISHI MET, PBS, KBB, NAPIER, HOLSET and IHI) in our 4.000 sqm warehouse in Magoula, Attica. Buying spare parts in bulk and in advance, we manage to offer competitive prices and supreme delivery terms to our clients because of purchasing economies of scale. Furthermore, we use only first-class suppliers whose products have been tested for many years in working conditions. We are willing to offer discounts only in the prices but not in the quality of our merchandise.

# Operations

Our technicians combine full knowledge of the specifications of the manufacturer and many years' working experience on a 24/7 availability basis. Consistent with the high standards of the company, a technician of TURBOMARE

will never compromise the safety of the vessel nor the quality of the turbocharger unit. For every onboard repair operation, a special report with findings and recommendations is sent to the company supported by photos.
